RED STRIPE

COMBINATION WRENCH SET 17 PIECES

Art. 5754101917

Available Sets: W6-W22

Rugged design, featuring a hardened steel construction, ensures resistance to tough applications that demand elevated torque. The combination of different designs (ring and open-ended) of the ends offers versatility for a wide variety of applications, meeting the most rigorous demands of tasks in maintenance and assembly in the fields of automotive, industry and construction.

COMBINATION WRENCH - FLAT

Rugged design, featuring a hardened steel construction, ensures resistance to tough applications that demand elevated torque. The combination of different designs (ring and open-ended) of the ends offers versatility for a wide variety of applications, meeting the most rigorous demands of tasks in maintenance and assembly in the fields of automotive, industry and construction.

Chrome-Vanadium Steel

The usual elevated torque demanded to tighten/loosen up bolts and nuts with big diameters is followed by the need a very resistant steel. The Chrome-Vanadium alloy (mix of two or more metals) enhances resistance to rusting and provides additional strength and hardness in tough operations.

Anti-Slip Handle

The tool is coated with a thick layer of textured matte chrome that offers a nice sturdy grip. It also provides an extra resistance to oils, greases, dirt, and other aggressive substances commonly found in workshops and construction sites, such as cement and solvents from paint that could attack the surface and lead to corrosion.

15 Degrees Angle Head (Open End)

It allows for an increase in movement which creates a larger turning arc when space is a restriction.

Flat Design

Allows work in confined spaces and are also suitable for union nuts and fasteners that are difficult to access.

Wide Visible Markings

Enable quick identification, for effortlessly pick the right tool from a tool bag or pouch, saving time and efforts.

Terms and conditions

Warranty Terms and Conditions for Würth Zebra and Red Stripe Hand Tools.

In accordance with the following terms and conditions, Würth Red Stripe hand tools are covered by a lifetime factory fault warranty. This warranty is only applicable to the person/business that originally purchased the product directly from Würth South Africa and is valid from the date of purchase granted that an invoice for the product in question is provided. Würth commit, with certain exceptions, to exchange or repair any product which, upon examination by Würth, is deemed to have flaws or defects in either the manufacturing process and/or input components/materials.

Red Stripe ratchets will not be covered by the warranty. If a ratchet has a factory fault upon receiving the ratchet, the purchaser must contact Würth South Africa within 7 days of receiving the ratchet. If the purchaser contacts Würth South Africa after a period of 7 days of receiving the ratchet, the warranty will be rendered null and void.

" Our vision, mission and values are to provide a product for our growing market within South Africa. RedStripe a good quality hand tool at an affordable price for professional use. With huge excitement – now the day is here!! The launch of our 1st phase on RedStripe hand tools. Our goal with RedStripe will be to continuously expand our RedStripe product assortment." - Chavonne Teunissen
